***Examiner's Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Referring to claims 1-9, 11, 13, 15, 17, 20, and 23, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, converting at least one of the plurality of sets of frame information by rotating at least one of the respective images expressed by the plurality of sets of frame information so that the rotational deviation among the images is reduced.

Referring to claims 10, 12, 14, 16, 18, 21, and 24, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, producing images in halftones by synthesizing the plurality of sets of frame information and performing specified interpolation processing using halftone data for pixels that are present in the area surrounding a pixel of interest, while successively moving this pixel of interest, and producing the image data from the halftone data following the interpolation processing.

Referring to claims 19, 22, and 25, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, detecting an amount of rotation that expresses the rotational deviation among the images expressed by the plurality of sets of frame information on the basis of the plurality of sets of frame information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
